## The Hongkong Telegraph

HONGKONG, WEDNESDAY, JULY 17, 1895.

### NOTES AND COMMENTS.

The Shanghai Mercury of the 9th July, under the heading "Imperial Poker at Peking," discusses the details of the little game played in the northern capital, by France, Germany, Russia and China—with England sitting out in the cold and an unconcerned spectator—for the supreme control of China and Chinese affairs for the next generation, and for the loans, railway concessions, contracts for arms and other incidental profits to be made out of the game. It traces the vicissitudes of the game and the combinations that threatened at different times to win, but gives the Pool eventually to Russia not on her "hand" but on the strength of a big bluff. It would seem as if Russia had won the game, had bluffed off Japan, had raised France and Germany until they could stand the strain no longer, and had seen China—pay. She has only chips not money in the pool. Will Russia be much the better off for her victory? We doubt it, but it is useless to discuss the question till we know more, and no one seems able to afford us any definite information. There is no news from Peking or Tientsin and still less information to be obtained from Europe through Reuters, and yet if the loan were definitely settled and the terms and the security arranged to the satisfaction of all the parties immediately concerned, something should have been published and something made known by this time.

Latest news from Korea is not reassuring, and no one is able to say how that unfortunate kingdom is to be dealt with. Whether it is to be left entirely alone to recover or die as Fate may direct, or fall again into Chinese hands—a fate worse than death—or are the Japanese to have control, or Russia, or is there to be a joint guarantee and a joint control? In Korea there is nothing but misery and confusion, faction fighting with faction for power, minister succeeding minister, only to be set aside himself in his turn. How will it all end? This is the question of the hour.

Japan seems to have entirely withdrawn from the strife. Her Minister is in Peking apparently unconcerned about the indemnity, or the loan, or the contests between the would-be lenders. He is there to negotiate and work out the practical results of his nation's victories, in the shape of a commercial treaty. In Japan, they are getting home the fruits of their victories in captured ships, guns and stores, reorganizing their army, filling up their magazines, planning the immediate enlargement of their navy and, as one of the leading papers puts it, putting before themselves, as the standard to be aimed at, a fleet equal to a contest with England! That is a large order, but they may manage it. Their population falls little short of that of the United Kingdom and they are pushing their way steadily forward as a manufacturing people and as owners of ships and steamers. In their country there are all the elements of maritime greatness.

We publish in another column an article taken from the Yokohama Box of Curio giving the impression produced on the mind of an active American man of business by a visit to Japan and an investigation of its industries. He had visited India, China and Japan, and on his return to his own country embodied some of his experiences in a lecture. He was amazed at the energy and ability with which the Japanese have thrown themselves into the manufacturing world and at the skill displayed by them in all branches of work and by the abnormal cheapness of labour. He is of opinion that in twenty years Japan will be the leader of the Orient and one of the strongest nations in the world. We agree.

Does any one suppose that if Hongkong belonged to the Japanese, and was held by them as it is held by England as a free port, that there would be only one wharf at which passengers can land or embark and that so small that only two steam-launches can get alongside at a time. It is a disgrace to the Government of Hongkong that in this harbour, with its enormous shipping and its busy steam-launch traffic, that there should be only one wharf. The scene at the so-called New Pedder's Wharf every evening is very discreditable. Bathing parties cannot get away under half-an-hour for want of proper accommodation. Old Pedder's Wharf was barely sufficient for ordinary traffic when at its best; when it had to be closed and some substitute provided it might have been remembered that for two years at least, if not for three, it will be impossible to reconstruct the old Wharf, and the new pier should have been made at least as large as the old one. If it is half the size, that is as much as it. There is plenty of spare timber about. Contractors by the dozen, labour in plenty, officers in the

Public Works Department sufficient in number for a colony five times the size; then why cannot the Murray Pier be improved and extended beyond the line of the new sea-wall and thrown open to the public at the earliest possible moment?

## REUTER'S TELEGRAMS.

### THE GENERAL ELECTIONS.

LONDON, July 16th.  
One hundred and sixty-two Unionists and seventeen Liberals have been returned to date. The Unionists have gained twenty and the Liberals two seats.  
One Labour and eight Irish members have also been returned.  
Daily, the dynamite, who is now in Portland jail, has been returned for Limerick.  
Mr. Stanley, the explorer, has been elected for Lambeth.  
The Right Hon. Shaw-Lefevre (Bradford Central) Mr. Wm. Sproston Calce (the total Member for Bradford East) and the Right Hon. Jacob Bright (Manchester, S.W.) have been defeated.

(From Japanese Papers.)  
KOREAN AFFAIRS.

THE QUEEN ASSERTING HER POWER.

SEOUL, July 7th.

The Queen attempted to arrest Home Minister Pak Yong-hyo last night, and the latter escaped to Chemulpo. War Minister Sin Kwon-ye was suddenly deprived of his office. An order for arresting Pak Yong-hyo on suspicion of treason was given to the Police Board. Pak fled to Chemulpo this morning, and will thence escape to Japan. With regard to the charge of treason numerous reports of detectives are in the King's hands. Statements of a Japanese, Sasaki Tomaru, by name, form the principal documents. Sin Kwon-ye and Yi Yun-nyong have been dismissed, and An Hyung-ju appointed Police Commissioner.

PRINCE PAK CHARGED WITH TREASON.

SEOUL, July 7th.

The Queen having attempted to arrest Pak Yong-hyo on suspicion of treason (the evidence is said to be in the King's hands) the latter got wind of the fact and fled to Chemulpo, probably to take refuge in Japan. Two men of Pak's party have been arrested.

LATE.

Last night the Cabinet Ministers except Pak Yong-hyo and Sin Kwon-ye were summoned to the Palace, and Pak Yong-hyo was suddenly deprived of his office. An order for arresting Pak Yong-hyo on suspicion of treason was given to the Police Board. Pak fled to Chemulpo this morning, and will thence escape to Japan. With regard to the charge of treason numerous reports of detectives are in the King's hands. Statements of a Japanese, Sasaki Tomaru, by name, form the principal documents. Sin Kwon-ye and Yi Yun-nyong have been dismissed, and An Hyung-ju appointed Police Commissioner.

## LOCAL AND GENERAL.

A MEETING of the Sanitary Board will be held to-morrow, the 18th instant, at 4.15 p.m.

THE July Sessions commence at the Supreme Court at 10 o'clock to-morrow morning with four cases on the calendar.

H.M.S. Tamar has arrived in Aden and may be expected to arrive here about the 8th proximo. The Tamar comes to relieve the old Victor Emmanuel.

H.M.S. Rainbow will proceed to Amoy to-morrow afternoon. The climate of Formosa has had a bad effect on our "jolly tars" and we are sorry to hear that in addition to the members of the Rainbow's crew taken to Hospital yesterday a few more were to-day removed to the Royal Naval Hospital at Wanchai.

THE second round in the Billiard Handicap at the Victoria Hotel will be finished in a few days, when we purpose giving the scores and results in full. The handicap at the Hongkong Hotel commenced last night, when Mr. Klegghorn beat Mr. Marteo by 92 points, and Mr. Forrance beat Mr. Lang by 93 points out of 300 up.

THE Shanghai Satcho asserts that the Viceroy Chang memorialized recently on behalf of T'ang Chin-sung, ex-President of the Formosa Republic, requesting permission for him to go up to Peking for an audience. The Emperor, however, does not want to see the ex-President and orders T'ang to retire from the public service.

At the Magistrate's this morning a private of the Rifle Brigade was fined \$5 for being drunk and disorderly, and a private of the Royal Marines was fined \$10 for disorderly conduct in a public place, and was also ordered to pay \$30 to a young lady whom he had seriously annoyed by breaking her furniture, and otherwise behaving in a grossly offensive and most reprehensible manner.

## MEMORABILIA.

To-morrow, the 16th July, recalls:

In 1812 the Blockade of the Grand Canal by the British Fleet.

In 1880 a terrible earthquake in Manila causing a loss of 10 lives and an estimated damage to property over \$1,000,000.

In 1885 the signing in London of the Additional Article to the Anglo-Chinese Convention.

News has reached us that Mr. Harry Stanley, of "Stanley Afton" renews, with his re-organized opera troupe, will open a brief season in Calcutta on the 15th of August. He will then make a tour through Burma, and the Straits Settlements, and come on to Hongkong and then "tour" the coast ports of China and Japan. Mr. Harry Stanley has recently had very bad luck and we are, we believe, echoing the sentiment of all who have the pleasure of his acquaintance when we say we hope he will achieve immense success in India and meet with a hearty reception in the Straits Settlements and, in fact, throughout the Far East.

It is reported, the Japanese troops at the town of Makung in the Pescadores are disconcerted to foreigners who happen to go ashore there when their vessels seek shelter in that fine harbour, than a useful purpose may be served by the matter being brought to the notice of the Japanese authorities at Tsushima. There can be no excuse for offensive remarks, and the adoption of an overbearing attitude towards a few foreigners who from motives of curiosity only visit the city of Makung is reprehensible. Such visitors, up to the present time at all events, have been seeking men to the extent that it is supposed they call there to "write up" the Japanese and be used as a plea of justification.

News reached here this afternoon from London on the effect that H. & S. Bank shares have gone up 10/- per share and now stand at £43.101.

It is stated in a Tokyo paper that the Japanese Government have spent up to date about 200,000 yen in expenses connected with the Chikuma-Raven case.

An anti-Christian outbreak has occurred at Pingyang, a China Inland Mission station 100 1/2 miles south of Wenchow. The native converts have had their houses and property destroyed.

Mr. HAMAZU Saburo, who did yeoman's service for his country in Korea a few years ago and is a brilliant English scholar and able diplomat, has been appointed Japanese Consul at Chfoo and proceeds to his post on the 20th inst.

The city of Makung in the Pescadores is in possession of the Japanese, and nearly all the Chinese have left. This city is surrounded by a wall which is entirely built of coral, and the houses are also made of the same material. On the 5th instant, when the Thales called in there, there were in Makung 1,800 Japanese, mostly soldiers, two Japanese men-of-war, five torpedo-boats and five Japanese transports.

ACCORDING to the report of the Japan Cotton Spinners' Union, published in the Japanese Official Gazette, there were forty-eight spinning establishments running in Japan in May last. The aggregate number of spindles of these mills, exclusive of those of eight where work was suspended or from which returns were not received in June, was 532,419, the yarn produced was 1,572,104 hankams, the cotton consumed 1,765,363 hankams, and the price of yarn per bale averaged yen 81.30.

MR. T. COWAN, Times war correspondent it is, we understand, going to be the guest of the evening at a dinner to be given by the President, and Council of the "Old Volunteers" at the Mount Austin Hotel prior to the meeting of the Society at which he will deliver a lecture on the China-Japan war on Friday evening. His Excellency the Governor has kindly consented to preside at the dinner and at the meeting in question and there will doubtless be a record made of the "O.V.s."

\* THE ratapayers of Hongkong, thanks to Dr. J. J. Canille and a few public-spirited residents, will have an opportunity of recording their votes on the side of one or other of the Great British political parties at the General Elections now in progress. Ballot boxes will be placed on Friday and Saturday in the local Clubs and the leading hotels and stores, and notifying districts special boxes will be forwarded to enable all Britons to cast their votes. Messrs. Playfair, Pollock and McCallum have consented to act as scrutineers and all the ratapayers have to do is to trot along and vote like men, forgetting for the moment that they are in a Crown Colony where popular representation and constitutional government are practically non-existent.

MR. FREDERICK VILKERS, the famous war correspondent and artist, gave the first of a series of lectures at Adelaide on the 26th ultimo. At a banquet at which he was subsequently entertained by the officers of the Military Club, he expressed his sorrow at the apparent dwindling away of the Colonial Defence Forces. He believed that England was bound to become involved in a war with Russia sooner or later, despite the present professions of amity and fluster about an *entente*, and whenever that event occurred Russia's first step in all probability would be a rush towards the colonies. He believed that in his opinion each colony should spare no effort to preserve a permanent defence force sufficiently powerful to successfully resist the efforts of any foe to effect a landing.

THE enquiry into the cause of the death of a Chinaman who was found lying in a side channel near McGregor Barracks on the 29th June, was resumed this morning at the Magistrate's. Inspector Ballin, who was recalled, said he could produce no further evidence and that he could not find anybody able to identify the Chinese Police constable, who, as deposed by some witnesses, had struck the deceased. A Chinese boatman gave evidence to the effect that he saw a Chinese constable strike the deceased, but could not identify the man. Mr. Wodehouse found that death was caused by a blow from the end of a pole, and that a blow said to have been administered to the deceased by a Chinese constable, not identified, but the evidence thereof was too unsatisfactory to be deemed reliable.

TWENTY-FOUR fresh cases of cholera occurred at Kobe on the 6th inst., and sixteen on the 7th instant.

MR. HISAMIZU SABURO, Japanese Consul at Chfoo; Mr. Alex. Marke, Honorary Consul for Japan at Melbourne, now on a visit to Japan, and Dr. Grassmann, late of the Imperial University, who left Japan for home on the 13th inst., had audience of "M. the Emperor of Japan on the 6th instant.

A RECENT special from Washington to the New York Herald is to the effect that "China has become a land of promise to many Americans. Believing that Japan's work has cleared the way for the advance of civilization into the Celestial empire, numbers of citizens of the United States propose going to China to obtain the first benefit which will undoubtedly follow the opening of Chinese ports to the world. Both the State and Navy Departments have received applications from Americans, who announce their intention to emigrate to distant Asia. The applications are a quest that their authors be furnished with certificates of American citizenship and introductory letters or citations of China. So far as the authorities are able, they grant the applications. A number of emigrants are expected to leave the country, and the State Department of their intention to go to China and give the day to day a charge to get in its work amongst a Gentile. It is also thought that railroad dollars will soon be set on foot in China. The only railroad line China now has is only about 80 miles in length. There is good reason to believe that China will take immediate steps to connect her ports with Peking, for she has realized during the late war that her inability to transport troops quickly was one of the leading causes of her defeat. Greater or more mischievous work was never published—even in an American (centennial) The last state of the youth and beauty of the States that rush to China will be worse than the first, however that may be. Leave progressive America to come to antiquated out-of-date China! What next, we wonder.

CONSUL General Jernigan at Shanghai seems to be a statesman and intelligent official. He has sent a note of warning to the State Department on the extension of the cotton and other industries in China, which he traces directly to the advantage enjoyed by the Chinese in the use of cheap labour. But Mr. Cleveland and his Secretaries are not, according to the Prince of Wales, likely to pay much attention to warnings, but the American people are keenly alive to their importance and will demand the abandonment by the United States of a monetary policy which precludes all idea of the States winning in a competitive contest with silver-using countries.

On the 28th March last year Lord Rosebery stated in the House of Commons:

"As soon as the articles of the Sino-Siam Convention have been accepted by the Siam Government we are assured that the place of Chantaboon, which was occupied as a guarantee for the execution of those provisions, will be executed by the French Government. There is no provision in which any man in that Convention which remains unexecuted except the title of 'Chantaboon'." That title is in progress and it is well known that, when it is decided, the French Government will fulfil its engagements."

Comment in view of recent events and the fact that the French still hold Chantaboon, would be superfluous. But it is just as well to bear his lordship's statements in mind for there is no knowing, of course, what a day may bring forth or how we may be tried before the word questions connected with French aggression in Siam are settled once and for ever.

## MACAO NEWS.

### THE END OF THE PLAGUE.

(FROM OUR OWN CORRESPONDENT)

MACAO, July 15th.

I am glad to be able to state definitely that the plague has been successfully wiped out. Up to the time of writing this no cases have today been reported, and during the last fortnight it may be said that the plague has practically disappeared. Indeed hardly mention that great credit is due to the Governor and the local Sanitary Board for the prompt and energetic measures adopted to disinfect the city, thereby checking the course of this terribly fatal disease whose disastrous effects the inhabitants of your colony and of this settlement will never forget. The preventive measures adopted by the Government instead of being set at naught were invariably followed here to a letter; the people in mass co-operating with the Government in the endeavour to defeat the insidious foe. The house-to-house visitation, the inspection and removal of those who were attacked, and the burial of the victims who succumbed to this awful disease, were carried out in a manner deserving the great praise of those who, as duty it was to attend to these matters. The fire engines under the charge of able management, and the firemen for more than two months flushed the drains, and thousands of tons of salt water were then continually running through and cleaning the small drains and leading sewers. From the time he commenced operations until the epidemic was practically at an end the Count never ceased flushing the drains, and I hear that he will keep his men at this useful labour until the cold weather sets in. Of course the Colony has lost tens of thousands of dollars over this visitation of plague, and it will be a long time before all the Chinese refugees return, on their stores and homes, and the business of the ports, even to the old channels and assume its old-time importance. Will send you complete mortality statistics next week.

## ANOTHER VICTORY FOR FRENCH DIPLOMACY.

The energetic policy of France is having good effect where the hopelessness of the British and American representatives produces only despair. From its Hankow correspondent the *China Gazette* now reports that H.E. Tan, the Governor, who is also acting Viceroy at Wuchang, has issued a proclamation in the Berthemy Convention, as recently required by the French Minister. Whether the presence of the French war-vessels in the Yangtze has had anything to do with it, we do not know; but anyhow the people are told at least that Missions to all nationalities are allowed to purchase property in the interior for mission purposes, without having first to obtain the permission of the authorities; and this act, it is said, will immensely benefit the mission cause. It will also make it difficult for the missionaries to drop on the poor natives and punish them so savagely for selling to foreigners, as has been their practice to so many as recently. Still we must look to the Convention would cover the so-called crime of the poor men in the interior. Evidently for the aid they gave the foreigners in acquiring the Kolling property, seeing the Convention was ratified and sent to the provinces before that transaction. But apparently nothing can save these men. The reply of the officials to the demand of the British Minister that they should be set at liberty, was that they intended to take off their heads; whereupon the *Financier* was ordered by wire, from Peking, to go down to Kolling; but the officials, absurdly, apparently, that there was no danger of any action being taken, remained as defiant as ever. One French official, to agree with Mr. Collins of Ichang, that it would be much better to have the "toy gunboats" stay in the sense of their being only for ornament and not for use—removed altogether, and let things take their course, than allow the mandarins to flout the British flag in this way. Who is responsible? Is the British Admiral bound down by the same idiotic orders as destroyed the Northern fleet, and drove the ill-fated *Tiger* to suicide, namely "Run no risks"? If so, England will have no cause to be proud of the result any more than has China.

## THE BERTHEMY CONVENTION.

As it is possible the Berthemy Convention will be the subject of discussion in the near future, and as the official text of that important document has never been published, we lay it, as published in *China Gazette*, before our readers in the form signed by Prince Ku, Prince, and the Ministers of the Tsung-Yamen:

嗣入屋文產天必教天例之者官後內其契人主專人主所費毋請法地契人姓登列之堂定多爾示國置據某名公傳名照各寬先准傳買內某資產教立納實無報辦教田富此爲主士契中契契明士地明係本權及之後稅賣地如房立賣應不奉後律契方

## TRANSLATION.

From this time forward whenever the missionaries purchase lands or houses in any part of the interior (of China) the title deeds of such lands and houses need only bear the names of the owners of the lands and houses. The title deeds need only specify that the above lands and houses have already been acquired by the Roman Catholic community and it is not necessary to write the names of the French missionaries; after the signature attached to the

title deeds, the Roman Catholic clergy must pay the Government taxes in the same manner as the native owners, according to the regulation prescribed by the Chinese Imperial Law. When the lands and houses are disposed of, the Roman Catholic Church the owners of such lands and houses are not required to wait the orders or permission of the native officials.

## CORRESPONDENCE.

(We do not necessarily endorse the opinions expressed by Correspondents in this column.)

## THE ACCIDENT AT BANK BUILDINGS.

AN EXPLANATION.

TO THE EDITOR OF THE "HONGKONG TELEGRAPH."

SIR—My attention has been called to a paragraph in your paper of yesterday's date dealing with an accident to one of the colliers in my employ.

You say:—"When working under, or supposed to be under, European supervision, proper appliances ought to be provided." &c.

It may interest you to learn that every possible appliance is provided for the use of these colliers, and that the work in question, being of a perfectly simple nature, is either under, or supposed to be under direct European supervision.

I am, Sir,  
Yours faithfully,  
W. STUART HARRISON,  
Manager,  
C. & T. Telephone Co., Ltd.

Hongkong, 17th July, 1895.

[We have much pleasure in publishing Mr. Harrison's letter. We understand from it that the Telephone Company provides their employees with all necessary appliances to enable them to do their work safely and well. We understand further that the sufferer by yesterday's accident, having a very simple and easy job to do, was left to do it without any supervision and that if he did not take a ladder of proper length and approach his work from the right direction he has only himself to blame. Quite so; but knowing how careless Chinese are, would it not be as well to see, before they go out, that they take with them proper appliances. It is useless to have them at all if their use in the proper time and place is not enforced.—Ed. H.K. Telegraph.]

## ANOTHER CHINESE MANIFESTO.

"REFORMATION FROM WITHIN IN PREFERENCE TO REGENERATION FROM WITHOUT."

In forwarding the following interesting information to our Shanghai morning contemporary a few days ago a correspondent is reported to have stated "the document shows there is some dissatisfaction with the present state of affairs. Whether the proposed organization will secure the end desired your readers will be able to form an opinion for themselves," and continues "a few days ago a Chinese gentleman gave me a printed paper (a manifesto) containing proposals and rules for a new society to be known as

THE CHURCH OF CHINA!

The proposals indicate that China does not need regeneration, they state or imply that every good can be obtained if

CHINA IS ONLY REFORMED

So the new Church aims at reformation from within in preference to regeneration from without. An ancient and venerable Church in the West expresses its creed in

THIRTY-NINE ARTICLES;

the Church of China is at present content to voice its faith in a "constitution" containing twenty-three articles.

THE OBJECT OF THIS SOCIETY is to defend the holy religion of China so that it may not be desecrated and destroyed by heretics; also to protect the Chinese race that it be not oppressed by other foreign races; to unite all good men in the empire and destroy secret and illegal societies.

China began to decay when Buddhism and Taoism flourished.

The work to be done is first to ascertain why China is poor and weak, while Western nations are rich and strong. Methods of government, use of machinery, and such subjects require close investigation. Then the comparative wealth of the different provinces of China should be studied; all who join should take up some branch of study. Shanghai is to be the seat of the central society with President and other officers to whom suggestions and hints may be sent, and they will publish all useful knowledge. For several years many good and wise men have been studying on this problem but no union or channel of communication has existed, so their good work has been practically lost; besides, little-minded people have sought merely personal gain under the profession of seeking the good of their country.

SUBJECTS TO BE AVOIDED.

Traditions; official matters and all lawsuits. The society only seeks to acquire knowledge and circulate it for the good of the people. Equality or equal rights are granted to all members; rank and class will not be considered. Hierarchy officials and merchants have been slandered and far apart, with no bond of union. All services rendered at first is to be honorary; when funds are collected, men of talent will be engaged and some sent to Western lands, while others will investigate in China.

Money is needed, and members should give according to ability.

The object is more worthy than the erection of temples, or supporting Buddhist and Taoist priests.

Schools are to be

Mr. James F. O'Brien, M.P. for South Mayo, has resigned his seat in the House of Commons with the view of contesting the vacancy in the City caused by the resignation of Mr. William O'Brien, who was recently adjudged bankrupt.

The *Redoubtable*, one of the French fleet in the Mediterranean, has gone aground at Cape Sepet.

LATER.

The *Redoubtable* has been refloated. She sustained but slight damage.

Mr. Young, of the firm of Turgand, Young, and Co., accountants, is making an exhaustive inquiry into the affairs of the City of Melbourne Bank, and will shortly submit a new scheme of re-arrangement, involving the conversion of a considerable portion of the deposits into debenture stock.

MELBOURNE, June 24th.

An inquest yesterday on the body of Richard Bale, quartermaster of the mail steamer *Roma*, which was found floating in the water near the steamer, an open verdict was returned.

AUCKLAND, June 23rd.

News from Tonga states wreckage from the missing schooner *Rala* has been picked up, confirming the worst fears regarding the fate of that vessel. It is believed that she had nearly 60 natives on board.

LONDON, June 25th.

Three non-commissioned officers and 10 hussars belonging to the Austrian army have been shot at Pirmyal, in Galicia, for having been concerned in the murder of an Austrian military sergeant. Eleven other persons who were also implicated in the crime were sentenced to penal servitude for life.

Dr. W. G. Grace was banqueted at Clifton last night. In responding to the toast of his health, he referred to the intense excitement which prevailed in England to the results of the principal matches played by Stoddart's team during the Australian tour. He considered it a great achievement for the Eleven to win three test matches in a country where the hospitality extended to the team was all against good cricket.

June 26th.

The Prince of Wales opened the International Railway Congress to-day. Mr. Playfair, Sir James Garfield, and Mr. Fyde attended. The convention concluded between China and France hands over to France the whole territory which was to compose the proposed buffer state between British Burma and the possessions recently acquired by France in Siam.

Mr. Justin McCarthy, in a manifesto to the Irish people, says that his party will support the Liberal party, whose programme places Irish autonomy in the forefront. He appeals to Irishmen throughout the world, and is confident of the result.

June 27th.

Admiral De Gama in trying to revive the revolt lost 150 men. He was compelled to retire, and committed suicide.

Four friends have donated to the Irish National Party £100 towards an election fund.

In the House of Lords to-day Lord Rosebery charged Lord Salisbury with having shown unexampled disrespect to the House in declining to state the policy of the new Government. He also asked Lord Salisbury why, immediately after the defeat of the Government, he had named his secretary to Mr. Campbell Bannerman, whom he met in the street, and demanded his seals of office before they had been surrendered to the Queen. Lord Salisbury in reply said that it was a matter of urgency that the offices should be filled, and he merely made a friendly request for which there were many precedents. He never intended any insult.

June 28th.

The Tory Association's programme includes the Referendum, an Imperial foreign policy, poor-law reform, old age pensions, employers' liability, the extension of small holdings, Irish Local Government, and the exclusion of pauper aliens.

## JAPANESE DEFTNESS.

Major Charles E. Pearce of St. Louis, U. S. A., returned to America only a short time ago having made close inspection of the labour question in India, China and Japan. On arriving at San Francisco he was invited by the Chamber of Commerce to read an article on his observations while abroad, and the meeting was largely attended not only by merchants but by many of the large employers of labour. In speaking of Japan, Major Pearce said:

"The Japanese are on steam-engines get from 20 to 30 sows a day, that is being three-fifths of an American cent."

The speaker said that a watch which cannot be bought for less than \$25 in gold in New York is sold for about \$12 in Japan. It is made by girls who earn less than 10 cents a day. They do work for which operatives in this country get \$3 a day. "Where are the watchmakers in the United States in the face of this competition?" he asked.

"Concerning our national egoism, which he thought a characteristic of America, he remarked: 'If we hug it to our hearts we will be left in the race when it will be too late to recover ourselves. With industrial conditions in the Orient as I have seen them the grind is going to come on our intelligent working people, and they will little understand or appreciate the fact to-day. You can scarcely mention a product which I cannot import from Japan and undersell you. This industrial revolution of Japan is a fact, and it is a fact which will be a great power in the politics of the globe. They are splendid soldiers and sailors. I would as soon command a regiment of Japanese as of any people I know. They have fire, pluck, endurance, patriotism and a physical power which is wonderful. Besides, the Japanese are homogeneous."

"They make Corliss engines, harvesters and many kinds of agricultural implements. They can imitate anything, no matter how complex the machinery. I may add that they are adapting themselves to western social forms."

"I was struck at the wonderful skill of the Japanese women in the cotton-spinning factories. They have the most beautifully modelled hands to the world and they work for a mere pittance. Japanese match factories have driven England out of the Oriental match market. Ordinary matches the Japanese sell for three-fourths of a cent the dozen boxes. They make other matches equally cheap. Here is a tooth-brush made in a Japanese factory. The like of it cannot be made in the United States and sold for less than 5¢. It is made in Japan and sold in New York for less than 1¢ a piece. The same rule applies to other brushes. Most of the products of the factory from which this came are exported to New York."

"They are making in Japan cutlery which is preferred by surgeons and others to the cutlery made in this country and in England. Within twenty years Japan will be the leader of the Orient and one of the strongest nations in the world. It is essentially a military nation. The Japanese and Chinese are multiplying skill to man

ships on American waters, on the Pacific and Atlantic."

Major Pearce said that the United States must have an outlet for its products and that every American should bend his energies to complete the Nicaragua canal, which will afford that outlet. He was surprised that Southern Congressmen opposed the canal subsidy bill, as, if the canal was completed, he said, the South would have no difficulty in supplying Japan and India with cotton.

He had stopped at Honolulu and he spoke of the islands. "With a destiny linked to our own they must belong to this country," he said, and applause came. "With the Hawaiian Islands joined to the United States and the Nicaragua canal completed the Oriental trade will be open to this country for all time to come."—Yokohama Box of Currents.

## WOOSUNG BAR.

It will be a matter of satisfaction to the British shipping community of Shanghai and the Far East generally to learn that the Japanese interest in the matter of the Woosung Bar, which was neglected and treated with official apathy by their own representatives in Peking and elsewhere, the new Japanese Minister is moving actively in the matter of the Woosung Bar. The *China Gazette* understands that the reason that this point was abandoned in the original Treaty of Peace between Japan and China was not that the Japanese unwisely lost sight of it, or were oblivious to the enormous interests involved by the retention or removal of "the heavenly barrier." The foreign diplomats have for years been picking the Tientsin Yamen with the question in play for a word of way, and with about as much success as that with which they have approached that august body of obstructionists on a hundred other points. It appears that the Japanese government, upon the clearing of the water approaches to Shanghai and the improvement of the upper reaches of the Yangtze, as far as the recently opened Treaty ports, by the placing of lights and buoys to mark the navigable channels. The Japanese are as much interested in the question of the removal of the Bar and the improvement of the upper portion of the Yangtze as are foreigners, and judging by the thoroughness with which they have handled China in other matters, we have great hopes that they will succeed where the played-out diplomacy of Europe has failed. It will be a pretty comment upon the policy of the old Powers with reference to the state of Young Japan, if it is left to Mr. Hayashi to carry through what three generations of British, American, and other Ministers in Peking have failed to accomplish. And Mr. Hayashi is more likely to succeed than are any of his older and less energetic colleagues.

On the 12th instant preparations were being made at Shanghai to raise the steamer *Birkhall* sunk at Woosung on the 11th, the operations having been placed in the hands of Messrs. Boyd & Co., Limited, and as there are no serious obstacles to be overcome, it was expected that the steamer will soon be afloat again. In addition to the Chinese man-of-war, the P. & O. Co.'s steamer *Khadra* sent assistance to the sinking vessel and some of the crew were taken on board the *Khadra*. On the 12th morning Captain Cameron of the *Birkhall* went down to Woosung and collected his men and brought them up to Shanghai, but as the *Sailors' Home* could not accommodate them all, Mr. E. Leigh had to provide for some of the men elsewhere. The pilot on board the *Wanted* at the time of the collision was not a foreigner. He was the native employed by the Nanyang squadron to pilot their vessels in and out. When he saw that a collision was inevitable, he tried to jump over board and drown himself and is now under arrest on board the *Wanted*. Captain Yang, of this vessel, has only recently joined her. He was one of the American students educated at Yale University, and at the battle of the Min in 1884 he was lieutenant on board one of the vessels sent by the French. When the captains of the Nanyang squadron signed during the recent war, owing to it having been rumored that their ships were to proceed north to fight the Japanese, Captain Yang volunteered and was appointed to the command of the *Wanted*. The *Birkhall*, according to *Lloyd's Register*, is an iron vessel of 1,447 tons gross and 937 net. She was built at Aberdeen in 1878 and has five hulls. Her dimensions are:—Length 250 ft., beam 31 ft., depth 17 ft. 5 in. Her engines are 150 h.p. nominal. At present she lies some 300 feet off the Prince's jetty in five fathoms.

## COMMERCIAL NEWS.

### HONGKONG SHARE MARKET.

HONGKONG, July 17th.

Mr. G. H. Potts reports as follows:—The share market continues dull and neglected and the share prices are generally without special activity of note in regard to the fluctuations of Stocks that have changed hands with the exception of Hongkong Banks which have suffered a slight reaction owing to the disappointment of some shareholders who, it seems, had, for some reason, formed expectations of a higher dividend. The Directors of the Hongkong and Shanghai Bank propose to pay a dividend for the Half Year of 25 shillings per share (at ex 7/11) place \$500,000 to credit of Reserve Fund and carry \$330,000 forward. The Hongkong and Kowloon Wharf and Godown Company has declared an interim dividend of 2½ per cent for the Half Year, payable at \$2½ on the 1st instant. The General Managers of the Hongkong Ice Coy. Ltd. have declared an interim dividend for the Half Year of 8 per cent, payable on the 27th July. The Hongkong Canton and Macao Steamship Coy. Ltd. has advertised its Half Yearly meeting for the 3rd August.

BANKS.—Hongkong and Shanghai Banks have, in spite of the magnificent Half Year's earnings above referred to, ruled weak and shares are obtainable at 150 per cent premium. The London rate, 100, has dropped to 143 but the fall is probably only temporary as there is no apparent reason for the decline. Nationals are offering at 82½.

MARINE INSURANCES.—China Traders have been offering during the week and are obtainable at \$50. Yangtze has been placed at \$95 and Straits have been sold at \$124 and \$10.

FIRE INSURANCES.—Hongkong Fire has had a further rise and sales have been effected at rates between \$210 and \$215, the market closing steady at the latter quotation. China Fire remains neglected at \$83.

SHIPPING.—Indo-China are required for at \$46 but there are none obtainable under \$47. The Company has paid a dividend of 8 per cent for the year. Hongkong Canton and Macao Steamships have been placed at \$49 and \$50 and more are wanted at the rate.

PEPPER.—There is no business to report in Stocks under this heading.

MIXING.—Punjabs have improved and sales have been effected at \$40 and \$5. The Preference shares have also been placed at \$1.30 and \$1.40, closing firm at the latter rate. Charbonnages are in demand at \$107½ but there are no shares obtainable under \$110. New Balmorals are wanted at \$50. Jobbers have charged hands at \$3.50. Rebois have been sold at \$4.10 and \$4.25 and are on offer at the latter quotation. A telegram received from the Mines states that the second crushing is finished and that 2400 tons of ore crushed yielded 1500 ounces of smelted gold.

DOCKS, WHARVES & GODOWNS.—Hongkong and Whampoa Docks have been placed at 104 per cent premium and Kowloon Wharf shares have changed hands at \$41.

LAND, HOUSES & BUILDINGS.—Hongkong Land Investment shares have been sold at \$19 and \$50½ but there are now none offering under the latter rate.

MISCELLANEOUS.—Hongkong Ropes are in demand and shares have been placed at \$121. A. S. Watsons have again changed hands at \$91. Hongkong Electric have ruled very firm and the market closes with buyers at \$4.5. Icos have been placed at \$84.

### SHANGHAI SHARE MARKET.

SHANGHAI, July 6th.

The following resume of the week's share transactions is taken from Mr. John A. Sullivan's report, published at Shanghai on the 6th instant:—

The volume of business done this week has been appreciably greater than has happened for some time past.

BANKS.—The continued improvements in the Hongkong and Shanghai Bank question has led to a specially noticed, considering the non-settlement of the loan by China, as it is still an open question whether the last reports about an international arrangement for financing the whole Japanese indemnity is correct or not. Several transactions have been reported at 185 per cent to 186 per cent, exchange 71, cash, and for delivery 31st August, at 190 per cent. From Hongkong rates have been reported at 185 per cent, but today the market is firm with buyers for that market, at 186 per cent. The Bank of China and Japan Limited advertise that the right for intending shareholders closed on 3rd instant.

INSURANCE.—Fire.—A fair number of shares, in small quantities, have changed hands at \$84. Hongkongers are wanted at \$80.

MARINE.—China Traders have been in strong demand, and to-day \$48 has been offered and refused. Union shares have advanced to \$16, at which price business is reported, and in Yangtze, shares have been sold at \$94. Straits are wanted at quotation.

WHARVES.—Sales of Shanghai and Hongkong Wharf shares have been made this week at \$11.20, but to-day there are no offers. In some

sequence of the accident to the *Talsang* in Hangchow harbour, by which an estimated loss of \$10,000 has been incurred, the quotation weakened to \$11.38, at which figure business has been done, shares are still offering.

LOCKS.—Roads have been wanted, but there are no shares in the market for sale except at an advance. Farnhams have changed hands at \$11.150.

CARGO BOATS.—Shanghai have been done at \$11.155, but in Co-operatives, though shares are wanted, there has been no business.

MISCELLANEOUS.—The Shanghai Gas Co. advertise their customary half-yearly 6 per cent dividend, payable 11th instant. The *Li Hotel de Colonies* has now ceased to exist as a Company, as it was decided at an extraordinary general meeting that the offer made to purchase the business and assets a par should be accepted. The prospectus of the first *Shanghai & Whampoa Co.*, under the management of Messrs. Jardine, Matheson & Co., has been advertised; the share list closes 20th instant. In other stock business has been done in *Perak Sugar* at \$11.281, in *Hall & Holt* at \$50, and *Land Investment* at \$11.38. In *Tobacco*, *Zankels* have risen in consequence of the directors having decided to purchase the necessary machinery for working oil, at once, and business has been done at \$11.140, \$11.150 and \$11.152 cash; for delivery 31st July, \$11.150 has been paid and to-day \$11.155 is offered for same date. *Sumatras* are wanted at quotation for cash, and for 30th Sept., \$11.610 has been paid. *Horis Basars* have been sold at \$11.48. From Hongkong, *China Sugar* have been brought at \$105.

LOANS.—*Municipal* 1895 debentures, bearing 5 per cent, have been sold at \$11.94, and in *Land Investment* 6 per cent. debentures, business has been done at par.

## THE CHINA TEA TRADE.

SHANGHAI, July 12th.

The *Pingyung* with the first Hankow tea arrived in London on Tuesday morning. So far it is known as to the business passing, in fact, the only sales made public are of the Keemun class. The profit ostensibly is nearly 2d. per pound, but the ship carried 60,000 c-hests and not 1,000 c-hests to have been sold.

The enormous export to Russia direct precludes the hope of any material assistance from any export demand; and the London market will have to "settle down" considerably before any better becomes anything like general.

We (Shanghai Mercury) send, at usual, our Hankow Report and the list of shippers, which alone of Shanghai papers we have been in a position to publish regularly.

HANKOW, July 8th.

The settlements for the week amount to 30,000 c-hests, prices ranging for Keemun and Keelung picked tea, to 80 c-hests, 81½ to 91½. Oolong \$1.75 to 82, Oolong 6d. to 91½. The black tea type standard could not be matched under a cost of 61d. per lb., and only to a small extent at that.

Information has been received from Russians residing in the Yangtze district reporting a threatened famine; vegetation almost ruined owing to the excessive heat and no rain, the rice crop a failure and the tea plants much injured.

Total settlements amount to 78,047 c-hests of first crop; and 131,037 c-hests of second crop; Stock 55,081 c-hests of all descriptions. Freight is unchanged.

## THE VEHICLE ORDINANCE.

The following regulations made by the Governor-in-Council under section 4 of Ordinance 13 of 1895 are published in Saturday's *Gazette*:—

1.—All vehicles except rickshaws, as usual, under section 2 of Ordinance 13 of 1895 shall be duly licensed as herein directed.

2.—The Captain Superintendent of Police may, on application being made in Form A hereto annexed, and on receipt of a fee of \$2.00, issue such license.

3.—Each license shall state the description of the vehicle, owner's name and place of abode and nature of its use, whether for trade or otherwise.

4.—Change of ownership or abode must be notified to the Captain Superintendent of Police, who will endorse the license, and note such endorsement in the Register of Licensed Private Vehicles.

5.—Private vehicles for which a license has been granted, used for trade, shall carry on both sides, legibly painted, the number of its license 2 inches in height and not less than one quarter of an inch in thickness of line, and no other number. Such number shall not be concealed and shall be of such colour as the Captain Superintendent of Police shall direct.

6.—Licensed private vehicles used for livery shall carry legibly painted on each side the number of its license, 2½ inches in height and not less than one quarter of an inch in thickness of line, scarcely fastened to the rear or only axle, number, legible to the back, and no other number. Such number shall not be concealed and shall be of such colour as the Captain Superintendent of Police shall direct.

7.—Each license shall be valid for one year only from the 1st July.

## Masonic.

Gaika (via Nagasaki, Kobe, Inland Sea & Yokohama) Tuesday, 27th August, at Noon.

THE Steamship "BELGIC" will be despatched for SAN FRANCISCO, via NAGASAKI, KOBE, INLAND SEA, YOKOHAMA and HONOLULU on SATURDAY, the 20th July, at Noon. Connection being made at Yokohama with Steamers from Shanghai.

Steamers of this line pass through the INLAND SEA OF JAPAN, and call at Honolulu and passengers are allowed to break their journey at any point en route.

Through Passage Tickets granted to England, France and Germany by all trans-Atlantic lines of Steamers, and to the principal cities of the United States or Canada. Rates, and particulars of the various Routes may be obtained upon application.

Special rates (First-class only) are granted to Missionaries, members of the Naval, Military, Diplomatic and Civil Services, to European Officials in service of China and Japan, and to Government officials and their families.

Passengers who have paid full fare, re-embarking at San Francisco for China or Japan (or vice versa) within one year, will be allowed a discount of 10 per cent. This allowance does not apply to through fares for China and Japan to Europe.

All PARCEL PACKAGES should be marked to address in full; and same will be received at the Company's Office until FIVE P.M. the day previous to sailing.

Consular Invoices to accompany Cargo destined to Points beyond San Francisco, in the United States, should be sent to the Company's Office, addressed to the Collector of Customs, San Francisco.

For further information as to Freight or Passage, apply to the Agency of the Company, No. 7, Praya Central.

J. S. VAN BUREN, Agent,  
Hongkong, 18th June, 1895.

## For Sale.

## IMPORTANT INTIMATION.

## NOW READY!

(PUBLISHED BY AUTHORITY.)  
FOURTEENTH ISSUE.

"THE HONGKONG DIRECTORY AND HONG LIST FOR THE FAR EAST," A DIRECTORY AND WORK OF REFERENCE ON ALL IMPORTANT LOCAL SUBJECTS FOR HONGKONG, MACAO, CHINA, JAPAN, THE STRAITS SETTLEMENTS, SIAM, INDO-CHINA, NORTH BORNEO, THE PHILIPPINES, AND KOREA, FOR THE YEAR 1895.

PRICE THREE DOLLARS.

"THE HONGKONG DIRECTORY" has again been enlarged and will be found

THE CHEAPEST, MOST COMPLETE, AND MOST RELIABLE WORK OF THE KIND EVER PUBLISHED IN THE FAR EAST.

THE above named work, published at the Office of "THE HONGKONG TELEGRAPH," contains a Directory for the Ports in the large portion of Asia between Penang, in the Straits Settlements, and the Northern Chinese Ports, including Vladivostok, Formosa, the Treaty Ports of China and Japan, Cebu, China, the Philippine Islands, Korea, British North Borneo, the British Colony of Hongkong, and the Portuguese Colony of Macao. It also contains the Principal Treaties between European countries and the United States and the countries East of the Straits, including the Treaties and Conventions between China and Great Britain, France, Germany, Russia, the United States of America, Brazil, Japan, Peru, Spain, and Portugal; together with conditions of Trade, and the Port, Customs, Consular, and Harbour Regulations for the Ports of China and Japan; also descriptions of the various Ports, with the latest Trade Statistics, taken from the Reports of the Imperial Maritime Customs and other reliable sources.

The various Governments and Municipal Corporations, and all Public Bodies and Companies, Bankers, Merchants, Consuls, Professional men, and other Residents, have supplied the necessary matter, upon forms specially sent for that purpose so as to ensure accuracy. The Naval and Military portions have been taken from the latest published official lists and revised at Headquarters; in fact, no pains have been spared to make "THE HONGKONG DIRECTORY AND HONG LIST FOR THE FAR EAST" a handy and perfectly reliable book of reference for all classes.

In addition to the information enumerated above, "THE HONGKONG DIRECTORY AND HONG LIST FOR THE FAR EAST" for 1895 contains a carefully revised

INDEX TO THE ORDINANCES OF HONGKONG.

A SPECIAL LIST OF FOREIGNERS employed in Steamers making short voyages from Hongkong.

THE PRIVATE RESIDENCES of the Principal Government Officials, the Leading Merchants, the Foreign Consuls, Professional Men, Justices of the Peace, &c.

A LADIES DIRECTORY FOR HONGKONG. The latest and only reliable

PLAN OF THE CITY OF VICTORIA, showing the proposed Reclamations and all recent additions and improvements, AND

A Mass of interesting information on various subjects, culled from the most trustworthy sources.

A CHAPTER ON SPORT gives all statistics up to date regarding the Derby, St. Leger and other great events. Also the WINNERS of all IMPORTANT RACES at HONGKONG, SHANGHAI, FOCHOW, AMOY, and other places, with other interesting particulars, carefully compiled from the most reliable sources, making "THE HONGKONG DIRECTORY AND HONG LIST FOR THE FAR EAST," a *volume* *volume* for all classes of sportsmen.

"THE HONGKONG DIRECTORY AND HONG LIST FOR THE FAR EAST" for 1895 is printed on a superior quality of paper, and is the best printed and most handsomely bound volume ever published East of the Suez Canal.

There is not space in the compass of an Ordinary Advertisement to detail all the information introduced into the work, but it may be fairly asserted that no such Directory has ever been published, either in Hongkong or any other part of the East, at such a low price.

"THE HONGKONG DIRECTORY AND HONG LIST FOR THE FAR EAST" offers Special Advantages as an Advertising Medium. It has an extensive circulation in all Ports between Singapore and Newchwang, in the Australian Colonies, the United States, and the United Kingdom, and the scale of charges has been fixed at an exceptionally low rate. Terms can be learned on application.

Suggestions for the improvement of this work are respectfully solicited.

Orders for COPIES, and for ADVERTISEMENTS, may be sent to the Agents at the various Ports, or to the Office of

"THE HONGKONG TELEGRAPH," PEDDER'S HILL, HONGKONG.

Hongkong, 4th February, 1895.

Printed and Published by CHESNEY DUNCAN at No. 6, Pedder's Hill, in the City of Victoria, Hongkong.
